

ICT in Emergency Situations (webinar)

Dates: Thursday, 7. May 2020

This webinar aims to introduce ICT companies to the possibilities of using their experience and technological potential in a variety of areas during emergency situations, such as protection of health, critical infrastructure and economy. The webinar will be conducted **in English**.

Speakers:

- **William Carbone - IBM**
- **Matúš Bakoň - insar.sk**
- **Juraj Gago - [Hack Virus \[1\] Initiative](#)**
- **Radovan Hilbert - YMS**

The webinar is prepared within [Diversification Services \[2\]](#), a new activity of the SARIO agency aimed at supporting the diversification of Slovak companies towards promising high-tech areas and other sectors with high growth potential.

For more information regarding planned events and the SARIO Diversification Services please contact: E: diverzifikacia@sario.sk [3]

All services are free of charge.
