

## Service & Business Process Outsourcing Centers

Over the past two decades, Slovakia experienced dynamic growth of the Business Services Centers (BSC) industry networks. Encouraged by an increasing high-quality standard of the Slovak business environment, the number of multinational centers is expected to increase further.

The availability of a qualified labor force is a key element for Business Service Centers. Their multilingual capabilities and expertise are major factors of moving value-chain of the established BSCs towards strategic centers with higher added-value positions. Among top employers of this sector belong IBM, AT&T, DELL, Amazon, DXC Technology, etc.

SARIO constantly monitors the development in the selected industries and based on investor's requirements can prepare tailor-made sector-specific analyses.

## Shared Services & Business Process Outsourcing Centers in **SLOVAKIA**
