

## Project meeting AUTOCLUSTERS

Tuesday, 30. November 2010  
Iasi (Romania), 29. -

Vladimir Svac, Strategic Development Manager of SARIO and Štefan Chudoba, Director of the Automobile Cluster Western Slovakia took part at the 5th meeting of project partners which was a part of the international project AUTOCLUSTERS focused on creation of the first cooperation and innovation network for the automotive industry in the South Eastern Europe Region.

The event was sponsored by the Technology University of "Gheorghe Asachi", Iasi, Romania and the participants were from Italy, Hungary, Bulgaria, Croatia, Serbia, Slovenia and Romania. SARIO representative introduced "small innovative pilot project" focused on infrastructure analysis for electric cars in the South Eastern Europe Region aiming to map and identify current potential of project partners regions from the point of view of infrastructure for electric cars. Automobile Cluster Western Slovakia with the seat in Trnava is the leader of this international project. The main idea of this project is to create better connections and close networking with the foreign partners in the R&D and innovation in the automotive industry.
