

Slovak SPACE & IT

Monday, 11. October 2021

The Slovak Space Office participated in the SPACE :: TALK event, organized by SPACE :: LAB operating under the Institute of Experimental Physics of the Slovak Academy of Sciences in Košice.

Lenka Tkáčová introduced the Slovak space ecosystem, the creation of the Slovak Space Office, and its ongoing projects for students and startups. She also took part in a panel discussion and, together with guests Peter Butka (Economic Informatics TUKE), Tibor Radačovský (Global Logic Slovakia), and Miloslav Ďurica (PHOTOMAP), answered questions about whether it is possible for Slovak space & IT projects to be beneficial for Europe.

The discussants clearly agreed that the combination of IT and space is suitable for start-ups and this area has great potential for the future.
