

Business missions

Business missions represent an opportunity for Slovak businesspeople to establish personal relationships and develop cooperation with foreign businesspeople. Throughout the duration of the National project 'Support of internationalization of SMEs' it is planned to carry out around 70 business missions, 40 of them abroad and 30 in Slovakia.

Business missions organized abroad

The goal of business missions abroad is to introduce Slovak companies to foreign markets, introduce the opportunities for business and investment in the given country and to establish closer cooperation with foreign partners.

The program of business missions abroad consists of attendance of B2B negotiations with foreign companies, as well as of accompanying events (attendance of a conference, visit to a fair/exhibition, attendance of a sourcing event, etc.), depending on the character of the business mission.

Business missions organized in Slovakia

The goal of business missions in Slovakia is to receive delegations of foreign companies in Slovakia with the aim of providing to Slovak companies the opportunities to develop cooperation with foreign companies, discover new business opportunities and obtain new contacts.

The attendees of business missions in Slovakia will have the opportunity to negotiate with foreign companies within B2B meetings, to present their products and services and to attend other accompanying events depending on the character of the business mission.
