“Slovak companies can bring innovation to global players! In 2018 more than one third of the Slovak solution providers, which participated in our workshops, got selected for follow-up meetings by our major clients. A half of these meetings ended up either with price quotation requests or pilot projects.”

## Innovate Your Business with Solutions Made in Slovakia!

"The mission of our company is to be a stable innovation partner for enterprises that have embarked on the path of intelligent industry. We bring unique technological solutions that are increasingly used also in foreign markets. In this respect, the cooperation with the Slovak Investment and Trade Development Agency (SARIO) is very beneficial for us, as we feel strong support in activities abroad and in gaining international contacts, especially by initiating matching events aimed at connecting potential partners in the field of innovation."

[Ing. Boris Duřa, CEO and Chairman of the Board, CEIT](#)

"SARIO provides valuable help in linking big multinational companies with Slovak small and innovative enterprises. For us, being a small business, it is a convenient way to get closer to bigger companies from abroad. We are very glad for our professional cooperation with SARIO."

[Martina Drahořov, Business Development Executive at Ixworx](#)

"I am grateful that SARIO helps Slovak innovative companies create business opportunities with global corporates. It is one of the ways how to provide services from Slovakia with high added value, which pushes our economy to a new, higher level. And not only economically, but also morally and socially."

[Ing. Michal Ukropec, CEO, Infotech](#)

"Cooperation with SARIO enables Slovak enterprises to effectively gain business opportunities in their target market. From this point, there is only a short journey towards a mutual, successful cooperation."

[Miloř Lipka, Co-owner and Executive Manager of Din Technik](#)

"We are very glad to have had the opportunity to cooperate with SARIO during several events and business missions. Our company focuses on innovations and at its beginnings it was a start-up. For a start-up it is always difficult to establish itself on the market and build its name and credibility and SARIO significantly helped us in that phase. The Agency opened doors for us to international companies and arranged meetings, which resulted in cooperation with these global enterprises."
