Robert Simoncic
Chief Executive Officer
SARIO

Dear participants and visitors,

It is my honour to welcome you at the Slovak Matchmaking Fair 2015 in Bratislava, which is following the eight successful years of the Slovak Matchmaking Fair and its tradition, as an annual meeting of Slovak and foreign companies, organized by the Slovak Investment and Trade Development Agency (SARIO) under the auspices of the Ministry of Economy of the SR since 2007.

The Slovak Matchmaking Fair 2015 provides an ideal forum for exploring business potential and for creating a platform where participants can effectively network in order to meet the right companies and this event gives growth opportunity to many SME's.

The previous business matchmaking events in past 8 years have resulted in many successful meetings and business interactions among almost 1,200 industry players across different industries.

Slovak Investment and Trade Development Agency (SARIO) is a modern investment and trade promotion agency, which is seen by foreign investors and domestic partners as a vehicle for growth and innovation in the Slovak Republic.

The main task of SARIO, under the auspices of the Ministry of Economy of the Slovak Republic, is to create optimal conditions and offer end to end services to businesses interested in investing in Slovakia and to businesses exporting their products and services abroad.

This year the Partner of the Slovak Matchmaking Fair is Asia as a region — focused mainly on China. This region is a large and very perspective business partner for Slovakia and Slovak companies.

I would like to thank all partners for exceptional cooperation in preparation of this year's Slovak Matchmaking Fair and also express my wish for a great success to this event and many real business opportunities turned into reality for the benefit of all participants.

SARIO is your one stop shop for investment and trade in Slovakia. Talk to us today!

INVESTMENT SERVICES

We will take your investment plans in Slovakia from A through Z to success. We provide in-depth information about Slovak business environment, industry opportunities, complex information on setting up a business, site selection assistance as well as real estate consultancy and complex aftercare services for established investors.

FOREIGN TRADE SERVICES

SARIO ensures identification of potential suppliers and subcontractors by matching your sourcing and procurement needs with the potential of Slovak producers. Business networking and matchmaking events bring Slovak partners closer to your company.

SARIO IS THE OFFICIAL GOVERNMENTAL AGENCY PROMOTING SLOVAK INVESTMENT OPPORTUNITIES AND BUSINESS POTENTIAL.

GROUND FLOOR

FIRST FLOOR

ACCOMPANYING EVENT

Export à la Google: How to Grow Your Business With Google on new Markets

The presentation of communication platform and Google tools focused on the export of your product or service on new markets.

With Google tools you will be able to:

- evaluate competition and opportunities of foreign markets
- discover new potential demand for your product on 70 markets
- trace the development of interest in your product or service
- compare competition brands and regions
- analyze movement and behavior of your website visitors
- map information on population, economy etc. on 48 markets
- find the fastest growing online sectors in individual countries
- rate the investment return and maximum customer acquisition cost

„For Slovakia, with its relatively small domestic market, the export is the key to the success and internet the gateway to the world. It is important to build on existing foundation and develop our successful industries as software development or automotive industry innovations.“

—
RASTISLAV KULICH, Google Slovakia

Google Slovakia is since its branch establishment devoted to the education of companies in digital marketing and support of internet economy with focus on technologies and startups.

SLOVAK INVESTMENT AND TRADE DEVELOPMENT TRADE AGENCY

Slovak Investment and Trade Development Trade Agency (SARIO) is government agency of the Slovak Republic established in 2001 under the Ministry of Economy of the Slovak Republic. It supports export activities of Slovak companies in global market and investment influx to Slovakia.

Since 2001 SARIO successfully finalized several hundreds of investment projects, among them the most important are projects of Volkswagen, KIA, PSA PEUGEOT CITROËN Slovakia, Johnson Controls, IBM, Embraco, Samsung, Honeywell, Siemens and others.

Československá obchodná banka (ČSOB) is one of the strongest and most important financial houses on the Slovak market. ČSOB is a universal bank and a member of the strong financial group in Slovakia, which offers clients a unique range of Professional financial and insurance services — ČSOB Financial Group.

ČSOB is a reliable partner for many Slovak as well as foreign companies not just in international trade. Service for corporate clients is based on individual, personal approach and partnership.

ČSOB is a top player on the Slovak market with regard to working capital solutions. The Bank provides wide range of products, many years of expertise on the market and individual approach towards its clients or targets.

ČSOB provides amongst others expertise in:

- Trade Finance (full range of products)
- Medium & Long Term Export Finance products (covered by ECA)
- Purchase of receivables
- Factoring
- and many other areas

**Exportno-importná banka Slovenskej republiky
je exportno – úverová inštitúcia typu Export Credit Agency (ECA),
aké existujú vo všetkých vyspelých krajinách sveta.**

Na slovenskom finančnom trhu pôsobí už devätnásť rok. Bola zriadená zákonom, je vo vlastníctve štátu a jej hlavnou podstatou je podpora vývozu a zvyšovanie konkurencieschopnosti slovenských výrobcov na zahraničných trhoch, ako aj umožňovanie realizácie vývozov do teritórií s vyššou mierou rizika krajiny, a to aj pri veľkých projektoch s dlhším odkladom splatnosti. Je jediným priamym finančným nástrojom štátu na podporu exportu, pričom ponúka široké portfólio bankových a poisťovacích produktov, ako aj odborné poradenstvo. Túto špecifickú formu štátnej podpory exportu poskytuje slovenským exportérom všetkých veľkostných kategórií. Súčasťou jej služieb je odborné poradenstvo pri štruktúrovaní vývozných kontraktov a kvalitné ohodnotenie zahraničných subjektov.

ÚVERY

- môžu u nás získať nielen slovenskí exportéri, ale aj ich zahraniční odberatelia a banky.

ZÁRUKY

- poskytujeme ako platobné, tak aj neplatobné.

POISŤUJEME

- úvery, výrobné riziko aj investície slovenských subjektov v zahraničí proti komerčným aj politickým rizikám.

During 5 years on the market VISIBILITY has worked its way to the top among online marketing agencies in Slovakia, with branches in Hungary and Czech Republic. To its 8 primary values belong progress and education.

Internet marketing agency

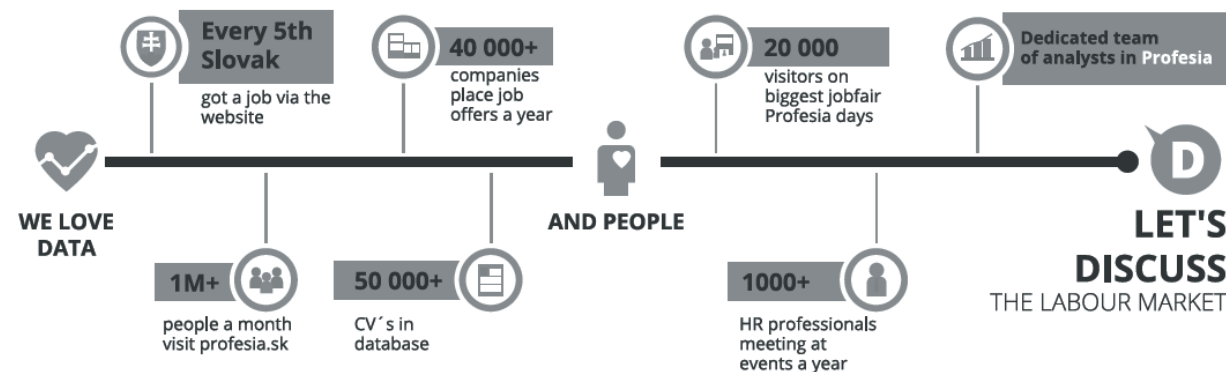

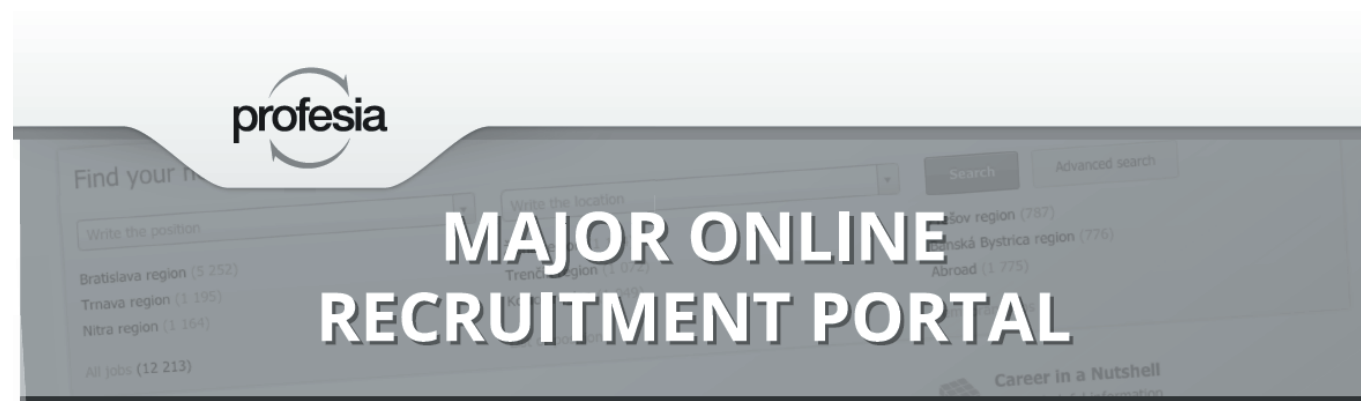

PROGRESS & EDUCATION

- free events and webinars for the public,
- plenty of articles on the blog from PPC, SEO, content marketing and web design,
- articles for economic media, such as Stratégie, Trend and Zisk,
- attractive infographics,
- seven e-books downloadable from the site,
- education at marketing conferences,
- tailor-made company education.

What else you should know about it:

- it is one of the key partners of Google in Slovakia,
- it has won Blogger of the year 2014 award in IT and innovations,
- it is formed by informal company culture and friendly relationships.

KTO SME?

Bratislava Region Tourism je profesionálna organizácia destinačného manažmentu, ktorá vznikla, aby bola destinácia Bratislavský región bližšie k Vám a Vy k nej! Aby ste vedeli o všetkom, čo sa oplatí vidieť, zažiť, navštíviť, ochutnať. Sme tu pre Vás, aby ste mohli tráviť Váš voľný čas s výnimočnými ľuďmi v našom regióne.

Spájame verejný sektor, samosprávu a podnikateľov, ktorí sa snažia budovať z nášho regiónu atraktívnu destináciu s pestrou a bohatou ponukou!

Pomáhame tým, ktorí stavili na kvalitu, výnimočnosť a jedinečnosť svojich produktov a služieb!

Prezentujeme destináciu Bratislavský región doma a v zahraničí, lebo sme presvedčení, že má čo ponúknuť!

Šírim myšlienku, že cestovný ruch je o ľuďoch a pre ľudí a jeho rozvoj napomôže tvorbe pracovných miest!

ČO ROBÍME?

- Realizujeme marketingu a propagácie destinácie Bratislavský región doma a v zahraničí
- Podporujeme tvorbu produktov a služieb v cestovného ruchu, Podporujeme budovanie turistickej infraštruktúry
- Vydávame brožúry, mapy a propagačné materiály o destinácii Bratislavský región
- Organizujeme podujatia v regióne
- Poskytujeme konzultačné a poradenské služby v oblasti destinačného manažmentu
- Sieťujeme podnikateľov v cestovnom ruchu v Bratislavskom regióne

COMPANY PROFILE

Historic beginnings of the ESSEL trademark go back to 1921, when a small engineering plant was established pusuing simple tool production for agriculture and forestry. In 1960 SL SLOVAKIA, a.s. started the production of hydraulic cranes with variable additional equipment, forest machines and other devices for agricultural and forest vehicles and tractors. In the present day SL SLOVAKIA, a.s. is a manufacturing company focused on the production of hydraulic cranes, recovery systems and cooperation production, which contains welding, material cutting, sawing, drilling, final machining, installation, testing and certification. The production is located in two manufacturing plants one in Slovenská Ľupča and the second in Zvolen with sufficient capacity for further cooperation. SL SLOVAKIA, a.s. also has a certified quality management system according to STN EN ISO 9001, environmental management system according to STN EN ISO14001 and welding certificate ISO 38–34. We are looking forward to meeting you.

COOPERATION PROFILE

SL SLOVAKIA, a.s. is currently looking for business partners, who are willing to become distributors of the ESSEL brand in foreign markets. SL SLOVAKIA, a.s. is also looking for new cooperations. We have sufficient capacity for welding, machining and material cutting.

COMPANY PROFILE

Alcast a.s. being established in 1998, is the firm focussing its activities on accurate pressure die–casting of products of aluminium alloys for automotive, electrotechnical and gas industry. Towards the end of 2002 the company went through a certification process, and on 13th February 2003 Alcast was given the Quality Management Certificate ISO 9001:2000.

Alcast is today one of the big foundries on the Slovak territory possessing a perspective for a further growth, both on technology improvement and on the capacity increase. Alcast has its own toolroom, aimed at production, sale and repairs of pressure casting moulds for aluminium casts, moulds for injection–casting of plastics, as well as shearing tools and spare parts for foundries.

Besides that the toolroom realises also machining and heat processing of metals– annealing, tempering, hardening and oxidization. There are vacant land spots inside the firm area in size of about 1 hectare suitable for enlargement of production capacities.

COOPERATION PROFILE

We appreciate you will take into consideration our company as prospected partner in business tenders for aluminium casts suppliers within the region of Central and East Europe.

Verejné prístavy, a.s. (Public Ports, a joint-stock company) was established on 21 January 2008 on the basis of Act No. 500/2007 Coll. amending Act No. 338/2000 Coll. on Inland Navigation. The company's founder is the Slovak Republic as represented by the Ministry of Transport, Construction and Regional Development of the Slovak Republic. The company was established to optimise the commercial operation of state assets and to increase the effective and efficient use of transport infrastructure in public ports in the interests of developing domestic and international waterborne transport.

Verejné prístavy, a.s. is charged with the following business activities:

- ensuring the readiness and securing construction work at the public ports in Slovakia while developing long-term and short-term concepts for their development
- assuring operation, maintenance and repairs as well as all records of facilities, structures and installations inside the public ports
- leasing land inside the public ports and other related activities immediately associated with the disposal of the assets inside the public ports
- collecting payments for the use of the public ports
- establishing the conditions for the development of multi-modal transport, including handing of multi-modal cargo units

Verejné prístavy, a. s. is authorised to collect payments for the use of the public ports pursuant to Section 5 (14) and Section 6 of the Inland Navigation Act. The amount of such payment is defined and collected on the basis of the Schedule of Fees approved by the Ministry."

Port Service Bratislava, Ltd. became the first private company in the port of Bratislava. Our aim is to provide our clients with the best logistics solution for import–export in Slovakia and worldwide as well. The main activity of the company is charging, discharging and storing of goods and raw materials for various industries and agriculture branches. At the present, Port Service Bratislava carries our handling of industrial fertilizers from DUSLO Šaľa chemical plant.

The company's experience was utilized up till now in handling of various materials, minerals, ores, chemical products, cellulose, agricultural raw materials, feeding mixtures for animals, machineries, etc. The Rhine–Main–Danube waterway represents an important transport arteria between the North Sea and the Black Sea, between the North and the South, as well as between the East and the West.

Very favorable geographical position of Bratislava on this waterway offers very good possibilities for development of goods transport to the countries of the Western and Eastern Europe. The company's aim is to create favorable conditions and circumstances for successful importing, exporting and transiting goods in the Port of Bratislava. Please, feel free to contact us in need of transport of any commodity. We are here at Your service.

COOPERATION PROFILE

In the means of export and transport of all goods. We are looking for new logistics opportunities.

COMPANY PROFILE

Yamagata Slovakia is a full daughter company of the Japanese Yamagata Corporation founded in 1906 in Yokohama as a print company. In the 1950s, Yamagata changed its focus to printing technical manuals for exporting companies and grew into a reliable partner for technical documentation for large Japanese companies.Today, Yamagata Corporation is active in three continents with over 2,300 employees and a turnover of 200 Mio USD. Yamagata Europe was founded in December 1998. Yamagata Slovakia was founded in April 2008. Initially, the goal was to serve Yamagata's multinational clients in Europe but over time, Yamagata offered its services to local European customers. Yamagata provides translation, lay-out and print services with a focus on technical and commercial content. Examples of covered areas are automotive, consumer electronics, software & hardware translations and translations for medical devices.

ORGANISATION DETAILS

COMPANY PROFILE

ŽOS Vrútky a.s. is traditional Slovak, modern, technically well advanced and dynamically developing company with rich engeneering and elektrotechnical tradition succesfully applied in products, such as own rail vehicles and own components of these vehicles. Nonconfidential ambition of the company is to reach the top of technical-technological and managerial level in the category of manufacturers of new rail vehicles. The synergy effort of the company to establish itself as a manufacturer of new rail vehicles correspondents to this trend, recently in gradual way, at first by common projects in the consortiums with well-known foreign companies and at the present time as an independent manufacturer of new train sets, eventually new rail vehicles.

The position of the company ŽOS Vrútky a.s. in the railway industry is clear. As customer-oriented, technically well-advanced company disposing of own know-how it has complex solutions and concept of development of own rail vehicles available. With sufficient flexibility it realizes own design, development and manufacture of new rail vehicles, especially passenger cars, interregional suburban motor and electric units and also their modernization, revitalization and repairs. The modernizations of electric and diesel locomotives are also a part of manufacturing program. On the basis of quite a number of certificates and licenses the company is able to provide the repairs of a number of various parts of rail vehicles equipment of all tractions such as bogies, wheel sets, traction and auxiliary motors, traction transformers and other electric and elektronick machines – as well as atypical machines, transformers of various types and designs etc.

COOPERATION PROFILE

We are looking for a cooperation partner in the area of rail vehicles, in connection with production, modernization as well as repair.

COMPANY PROFILE

AHP HYDRAULIKA is a private joint–stock company located in a heart of Europe in the central part of the Slovak republic, in Turčianske Teplice. The company was founded in 1952 under the name of Geostroj. The former company was owned by the state. The production program was manufacturing of earth–drilling tools for geological boreholes – for needs of geological and mining industry. Actually, producing of those goods is comprising approximately 15% of manufacturing capacities.

Production of Hydraulic transmissions was started in 1997 – axial piston pumps and motors. In year 2000 the company Geostroj was renamed to AHP HYDRAULIKA a.s.

Main activities:

- production and sales of axial piston pumps & motors
- production and sales of earth drilling & mining tools
- cooperation
- precise parts produced on CNC machines

AHP HYDRAULIKA, a.s. has gained Quality management system certificate QBE 02440. Quality management system of AHP HYDRAULIKA, a.s. is in compliance with the quality management system standard ISO 9001:2008 (Exclusion: 7.3). Product's quality is assured with using of high quality precise tools and testing equipment. Moreover, in 2010 company AHP HYDRAULIKA, a. s. has invested into new CNC technologies – 9 x CNC lathes (Alpha, Tornado); 4 x CNC grinding machines (Studer); 2 x CNC horizontal machining centers (Quasar, KIA–Hyundai).

COOPERATION PROFILE

We are looking for company which needs supplier for machining, turning and grinding. Our production is suitable for big batches.

COMPANY PROFILE

Jadrová a vyrad'ovacia spoločnosť, a.s. (JAVYS) is a company with 100% of the shares held by the state, who exercises its rights as a shareholder through the Ministry of Economy of the Slovak Republic. JAVYS is an authorized organization under Slovak law no. 541/2004 for the peaceful use of atomic energy and radioactive waste management, which performs the following activities:

- takeover of radioactive waste from waste generator and transportation to treatment and conditioning facilities
- storage of radioactive waste, treatment and conditioning of radioactive waste including their decontamination in order to release non-radioactive materials to the environment
- treatment and conditioning of radioactive waste to a form suitable for final disposal
- final disposal in accordance with legislation in force and related regulations

The main activities of JAVYS are related to the decommissioning of V1, decommissioning of A1, safe management of radioactive waste and final disposal of low and intermediate level waste at Mochovce site. The services related to the management of radioactive waste and spent nuclear fuel in the Slovak Republic are carried out by JAVYS state authority, using its own technologies (such as sorting, incineration, compaction, concentration, cementing, bituminization, decontamination, fragmentation or vitrification) using its own human and material resources. JAVYS also manages institutional radioactive waste and orphan sources providing safe and reliable disposal. During the radioactive waste management, JAVYS follows strict rules and is supervised by the competent authorities.

COOPERATION PROFILE

Jadrová a vyrad'ovacia spoločnosť, a.s. (JAVYS) is looking for opportunities to provide our expertise in the field of nuclear back-end for clients and projects abroad. Our service spectrum includes nuclear facility decommissioning, radioactive waste management and consultancy services. With more than 40 year of experience we are prepared to provide tailor-made solutions perfectly meeting clients needs and fulfilling all safety requirements. With wide network of partners we are ready to implement projects ranging from small up to complex turn-key solutions. We can provide comprehensive services throughout the life of a project, working as a team member, acting as program manager or leading an entire project. JAVYS is searching for credible partners who can contribute with their intense Asian market insight and know-how as well as expertise in the field of nuclear energy.

COMPANY PROFILE

We are research, development, and manufacturing company in the field of electronics. We provide high–quality cash register devices and IT solutions for the field of industry, health care, banking and advertising. We offer contract manufacturing services (CMS/EMS). The proof of the high–quality level of our products and solutions is their popularity among the customers in more than 50 countries, particularly the EU countries, America and Asia but also in such highly competitive regions as Hong–Kong and Singapore. Quality is at the first place, therefore we pay so much attention to the draft, development and production. There are the most sophisticated automatic technologies in the production of electronic components, these technologies meet even the strictest EU terms for ecological lead–free production. We use high capacity of production facilities apart from producing our own products also for challenging projects for other producers. Quality of our production enables us to supply also demanding partners from automotive industry. Before the product gets to the customer, it completes thorough multiple control. That is one of the reasons why we manage to meet demanding criteria required by the norm ISO 9001.

COOPERATION PROFILE

Elcom is looking for a partner in the field of distribution, re–sellers, SI of hight–tech innovative products. Elcom produce:

- all–in–one durable computers and tablets with IP cover 54/65
- signature devices which reads special biometrics data
- cash registers
- POS
- etc

COMPANY PROFILE

Our company was established in 2013 only for one mission. The mission is improve, test and present our software MN–DA. It is software for analyze acid–base balance in patients internal environments and in cooperation with external dvice it is non–invasive unit of measure. In the beginning there was the idea of carrying out an analysis of the acid–basic and ion balance of the inner environment in premature children so that they suffer as little as possible.

Over time, we have developed the MN DA software, that together with the TINA TCM/4 device, can accurately measure the inner blood environments (acid–basic balance, ion balance, blood sugar, urea and osmolality examination, etc.) by non–invasive means. This software together with the device that can measure pO2 and pCO2 partial pressures via a probe, can be used for measuring the inner blood environment of adult patients, patients with various diseases, patients with high–degree burns. A big advantage is also the continual monitoring of patients during or after surgery. The software is aimed at making the analysis of the acid–basic balance and ion balance of the inner environment by non–invasive means in every patient quicker, simpler and more accurate.

COOPERATION PROFILE

We are looking for partner or partners who would like to continue in our mission. Company who would like to place this software on market and would like to improve this software in medical environment or others environments. It could be company which is involved in medical environment.

ORGANISATION DETAILS

COMPANY PROFILE

Château Topoľčianky is a wine manufacturer established in 1933 in the central part of the Danube plain in the south of the Slovak Republic. With over six million bottles produced each year, we are the leading wine producer in the country and one of the best established wine brands in the Central European region. On our own 500 hectares of vineyards around the village of Topoľčianky, we produce more than 5.000.000 bottles of red, white and rose wines annually. The tradition of growing grapes in this region dates back to 1723, and numerous families have long-established wineries in the area. For selected varieties, we maintain a tradition of closely cooperating with smaller wine growers in the region, and purchase some additional grapes each year from them. Our wines include typical varieties in the Danube region in categories of quality wines and wines with attribute. The typical grapes in the region include Grüner Veltliner, Welschriesling, Pinot Blanc, Blaufränkisch, Pinot Noir and some regional specialties such as Palava, Devin and Alibernet. The combination of northerly climate and variable soil conditions with professional treatment of qualified viticulturalists produce most interesting wines with top qualities. Our company takes best care of every step of the wine-making process. After the harvest, we collect the juice in our underground cellars. Up to 560.000 liters of red wines age at a time in our 100 underground oak barrels. In the modern part of our cellar, over 100 stainless steel tanks with the individual content up to 110.000 liters of white and rose wines. As quality of our products at every step is as important to us as tradition, in 2006, we have put in place a fully automated bottle filling system, which allows us to fill up to 4000 bottles of our wines per hour under the highest standards. While based on a historical tradition and a long-established knowledge of wine-making, we try to discover our wines time and again. Besides the popular traditional varieties – Grüner Veltliner, Welschriesling, Pinot Blanc, Blaufränkisch and Pinot Noir which we have kept unchanged over the years, we introduce a number of new varieties and variations almost each year. For an overview, please, take a look at our Products presentation.

COMPANY PROFILE

We are a company providing services with the focus on information technology. In Slovakia, we were established in April 2004 and currently we employ almost 300 IT experts in Kosice. Since the beginning, our main task is to provide IT services within the utility business. Our services cover SW development, SAP implementation, support and maintenance of IT solutions and independent Testing and quality assurance. Until 2014 we pushed our goals and ambitions which we gradually transferred to the European market, area of smart living or development and support of business applications. After 10 years of existence as RWE IT Slovakia we reached our market boundaries. Therefore we decided to cooperate with the Vietnamese company FPT Software, which represents one of the strongest players on the global IT market which belongs to TOP 100 ICT outsourcing companies in the world. Since then we act on the market as a daughter company of FPT Software with the company name Fpt Slovakia. FPT Software thus entered the Slovak market, from here they plan to expand further into Europe. The combination of high productivity, high quality, competitive prices and the so called bestshore solution brings a real added value to our customers. Through cooperation with FPT Software we are more efficient on the global market. FPT Software is the biggest and one of the fastest expanding Vietnamese companies with focus on the software development. It was established in 1999, already in 2000 they established the first foreign subsidiary for a British client and cooperated with a Japanese client. In short time, the cooperation with IBM, Microsoft followed and new sites were created in Japan, France, Malaysia, USA, Australia and Germany. In 2014 they entered the Slovak IT market as the first Asian investor in the region of Eastern Slovakia. You can find more information about FPT Software on www.fpt-software.com.

COOPERATION PROFILE

We are looking for – companies in energy sector – production, distribution – companies in health care sector – hospitals, health insurance, pharmacy – companies in automotive sector – companies in ICT.

ORGANISATION DETAILS

COMPANY PROFILE

Development, assembly and after care for conversion kits of Light Commercial Vehicles from single cabin to double cabin. TIER 1 supplier of Opel and Renault. Mission: The modification of light commercial vehicles with an optimal price/quality ratio. Ex-works commercial vehicles are brought on the market in a limited number of body-variants. By the modification of commercial vehicles for manufacturers, dealers, importers and body-workers it is possible to meet the specific demands and needs of the end-user. Because the complete process, including product development and the production of semi-products takes place in own management, an optimal price and quality is guaranteed. Vision: to become global market leaders by 2020, by increasing our TIER 1 position after Opel and Renault.

COOPERATION PROFILE

Snoeks Automotive, as European market leader in light commercial vehicle conversion is looking to diversify its supplier base from the Slovak and other regional markets. Production facility is in CZ. Main focus is on large ABS thermoforming and metal parts, but we are also interested in packaging, foam, glass, fastener and logistic suppliers. SACZ is a Dutch family owned business, TIER 1 supplier to several OEM's, with a growing number of orders and demands. Our priorities: reliability, flexibility, commitment, interest in R&D, low, medium and large series, good communication and long partnerships.

COMPANY PROFILE

Hebei Wanfa Garments and Textiles Group Corp., Ltd. is a prosperous medium-scale private enterprise group, originated from 1989th. Wanfa was incorporated in February 1996 with a registered capital of RMB 26,680,000 as a group combining scientific research with manufacturing and trading, focusing on apparel research and design, manufacturing and processing, and integrating with weaving, dyeing and finishing. Wanfa is the first private enterprise group in Hebei Province accredited by the provincial government and also the first private enterprise group in Hebei Province authorized by MOFTEC the right of self-supported import and export. Wanfa's clothing factory, which is located at Rongcheng County Hebei China, covers an area of 45,000 square meters. With the present construction area of over 20,000 square meters, it is divided into 12 workshops, all equipped with up-to-date professional machines of brand JUKI. Now Wanfa has 1,100 workers engaged in production and has got a monthly capacity of 160,000 pieces and sets that range from men's and women's shirts, to suits, coats, jackets, padded shirts, jackets with stuffing, trousers and pajamas. Over a thousand kinds of fabrics are employed for the products, which mainly include cotton fabrics, linen fabrics, cashmere fabrics, Melton fabrics, Modal fabrics, soybean fabrics, bamboo fabrics, and all kinds of blended fabrics. Our main market is for Europe, Central Europe, USA, Australia etc., with a total export value of over USD10,000,000 per year. On the basis of mutual benefit, Mr. Jiang Wanfa, Chairman of the Board, sincerely hopes to have a close cooperation with any foreign companies and agents to establish more flexible trading methods for a development of economic and trade relationship. Our tenets are harmony, diligence, frugality, super quality and high efficiency. Our factory policy is to manage it with human-centered and moral values. Our requests to the products are: to be famous, elegant, unique, special, innovative, exquisite, unmatched, and to be of high quality, beautiful looking, and to be followed by efficient service. Our business principles are: with sincerity and faithfulness, to develop from small orders to big orders, from new customers to long-lasting customers, from business partners to close friends. We also would like to make friends while doing business around the globe with no business deception, and to provide products of high quality, reasonable price, on-time delivery, with enthusiastic service and good manners in communication. Wanfa's products in brands "W.F., JOHN WANFA" and " TIAN GUAN" accepted by a mass foreign businessman, have enjoyed a good reputation among new and old customers for their elegant styles and exquisite workmanship. We have been accredited with ISO9001:2008 Certificate for Quality Management System and BSCI (Business Social Compliance Initiative).

COOPERATION PROFILE

WE are a professional shirts maker , combining scientific research with manufacturing and trading, focusing on apparel research and design, manufacturing and processing, and integrating with weaving, dyeing and finishing. We are looking for cooperarion parters in shirts-maker, custommers and professors specialized in garments field.

COMPANY PROFILE

CNAICO is a wholly–owned subsidiary of China National Machinery Industry Corporation (SINOMACH), a large state–owned group and a Fortune Global 500 enterprise. CNAICO specializes in areas such as international exhibitions, international trade, project contracting, and culture and media, as well as industrial investments related to these areas. CNAICO has over 20 wholly– or partially–owned subsidiaries. In recent years, it has won in succession honorary titles such as the"Top 10 Most Influential Exhibition Companies of China Exhibition Industry", the"Most Influential Exhibition Company", and the "Most Influential Brand of China Automobile Trade", and proudly received the "Best Exhibition Organization Award of China". Today's CNAICO has already grown into the largest and strongest centrally–administered enterprise in China automotive exhibition industry. International exhibition is a core business for CNAICO, which are recognized because of over 20 years of exhibition organizing experience and a professional organization team. Adhering to our exhibition philosophy of "Serving Auto Makers, Auto Sellers, and Auto Users", CNAICO has not only forged a comprehensive exhibition business system that integrates the organization of proprietary domestic and international exhibitions, agency service for overseas exhibitions and exhibition engineering services, but also held numerous automobile exhibitions that combines internationality and locality in over 30 large and medium–sized Chinese cities. The total exhibition area of exhibitions that CNAICO independently organizes or jointly do with partners each year exceeds 2 million m2. In particular, "Beijing International Automotive Exhibition" and "Shanghai International Auto Parts Maintenance and Diagnostic Equipment and Service Tools Exhibition" have successfully ranked among the Top 100 World Trade Fairs. In the field of international trade, CNAICO actively engages in global economic and technological cooperation. It mainly deals with import and export of motor vehicles, auto parts, and other mechanical and electrical products, with market presence in countries and regions all over Asia, Europe, Latin America, and Africa. The company is wholly praised of a relatively strong competitive market advantage in the export of motor vehicles and the import of key auto parts. It is also a strong service provider and dealer for Castrol automotive oil products in the domestic market. As to the business of project contracting and supply of complete plants, CNAICO is specialized in the export of complete power plant equipment and has been one of the major service providers for the export of Chinese power plant equipment to India. With a firm anchor in automotive, machinery and other traditional industries, CNAICO's operations in the cultural media sector, mainly cover advertisement planning, industry consultancy, and other relevant services dominated by talent exchange. Adhering to our value of "Pragmatism and Innovation, Harmony and Win–win" and our development path of "Integration and Synchronous Development of Exhibition and Trade", CNAICO is committed to becoming an integrated automotive service and trade enterprise with industrial leadership in China and an international reputation that focuses mainly on modern exhibition services and international trade.

LANCom d.o.o. offers consulting, planning, setting up and maintenance of comprehensive IT and system solutions in cooperation with leading global IT vendors (HP, IBM, Palo Alto, Lenovo, Hitachi) along with company's own flagship software LANCom PIS™ (a Passenger Information System for railways and expandable to other forms of public transport).

We also provide PACS/RIS (Vams software) and other customizable cloud-based solutions (LANconsulting™ – a forum-like app for exchanging opinion between physicians) for the healthcare market. LANCom d.o.o. also offers state-of-the-art cloud computing services through business partner Post of Slovenia (HP Helion Cloud).

COOPERATION PROFILE

LANCom d.o.o. is looking for customers that would enjoy using our products – LANCom PIS™ and eConsulting™ – namely companies that offer transport services (primarily rail) either from public or private sector on one hand and healthcare institutions on the other hand. We would also be extremely interested in a partnership with either private or public institutions involved in projects within the transport sector (informatization of public transport hubs and stations); either as a leading partner, subcontractor or R&D partner. As cloud providers, we are actively searching for customers willing to move a part of their IT infrastructure into a Cloud. Country-wise we are not limited to any special geographical area.

WHY SLOVAKIA

MACROECONOMIC OVERVIEW

More Balanced Growth Ahead

The Slovak economy slowed down in 2013 but growth is expected to gather pace, reaching 2.3% in 2014 and 3.2% in 2015. The composition of growth is to become more balanced as the main driving force shifts from net exports to domestic demand. Employment is expected to grow only modestly and over the forecast horizon and inflation will remain low.

(Source: European Commission, European Economic Forecast, winter 2014)

Best Conditions for Doing Business in CEE, 2004–2013

This ranking of the World Bank considers the quality and attractiveness of the business environment. Economies are ranked on their ease of doing business, from 1–185, with the first place being the best.

Eurozone Member — One of a Few in CEE

Slovakia adopted the Euro on 1 January 2009 and thus became the 16th member state of the Euro Area. The official exchange rate was 30.126 SKK/EUR. Membership in the Euro zone reduces the currency exchange risks and tightens the fiscal discipline of the adopting countries, resulting in stable economy.

FOREIGN DIRECT INVESTMENTS IN SLOVAKIA

Since 1993 Slovakia has been the top investment destination country in the CEE region. The total volume of FDI inflow reached EUR 40 billion in 2010. Hundreds of major investment projects from the US, Asia (China, Taiwan, South Korea, Japan) and Europe (Germany, Austria, France, Italy) have chosen Slovakia as their preferred destination, mainly in automotive, electronics and information technology.

Slovakia, as one of the most attractive emerging markets in the world, affords its investors a rare combination of reasons why to invest in the country.

SARIO PROFILE

Slovak Investment and Trade Development Agency (SARIO) is a governmental investment and trade promotion agency of the Slovak Republic. The agency was established in 2001 and it operates under the Ministry of Economy of the SR.

Portál exportných a kooperačných možností SARIO

Nájdite si vhodného zahraničného dodávateľa alebo obchodného partnera

Portál slovakiasourcing.com umožňuje zaregistrovaným firmám bezplatné zverejnenie ponuky tovaru, služieb alebo kooperačných aktivít so zahraničným subjektom.

Zabezpečuje aktívnu komunikáciu a napomáha zosúladiť medzi domácimi a zahraničnými podnikateľskými subjektmi v oblasti vzájomnej spolupráce prostredníctvom ponúk a dopytov najmä v týchto oblastiach:

- strojárstvo
- elektrotechnika
- elektronika

REGISTRÁCIA

- je rýchla a jednoduchá, stačí online vyplniť profil firmy a kontaktné údaje na www.slovakiasourcing.com
- je bezplatná, rovnako ako služby portálu
- je platná 1 rok a je možné ju predĺžiť

PONUKA A DOPYT

Zaregistrované firmy môžu online zadávať ponuku/dopyt — špecifickú požiadavku na spoluprácu alebo ponúknuť svoje voľné výrobné kapacity.

- zadanie je bezplatné
- platnosť je až 60 dní
- je možné zadať viac ponúk / dopytov súčasne

ZAREGISTRUJTE SA EŠTE DNES!

Získate priestor na bezplatnú prezentáciu firmy a aktívny prístup do denne aktualizovanej databázy ponúk a dopytov na produkty, služby, subkontrakting, joint-venture, drobné investície.

Portál pre exportéra

Portál pre exportéra, dostupný na adrese export.slovensko.sk, je webstránka určená najmä slovenským podnikateľom s cieľom poskytnúť všetky dôležité informácie o podpore exportu na jednom mieste. Je smerovou tabuľou pre zorientovanie sa v spleti služieb až 12 štátnych inštitúcií, ktoré na Slovensku určitým spôsobom podporujú zahraničný obchod.

PORTÁL PONÚKA

- aktuálne informácie o podujatiach, projektoch a ponukách pre podnikateľov (opodnikateľských misiách, veľtrhoch a výstavách, vzdelávacích seminároch a pod.)
- teritoriálne a sektorové vyhľadávanie v obsahu, ktorý je vytváraný 12 rôznymi štátnymi inštitúciami podporujúcimi export
- smerovanie podnikateľa ku konkrétnym službám a inštitúciám podporujúcim export
- metodiku zahraničného obchodu v podobe jednoduchých návodov na zorientovanie sa v procese zahraničného obchodu prostredníctvom Manuálu pre exportéra

HLAVNÉ ČASTI PORTÁLU

- **Aktuálne informácie** — v tejto časti sú zverejňované informácie o aktuálnych podujatiach, podnikateľských misiách, veľtrhoch a výstavách, novinky zo zastupiteľských úradov či iné projekty a výzvy pre exportérov
- **Metodika exportu a informácie o službách pre exportérov** — položky menu prevedú záujemcov o export cez hlavné aspekty, ktoré musí pre začatie exportnej operácie zvažovať, predstavia príbehy úspešných exportérov, etablovaným exportérom poskytnú informácie o dodatočnej podpore pre rozširovanie exportu. Položky obsahujú informácie o financovaní exportu a komplexný prehľad služieb štátnych inštitúcií podporujúcich export
- **Presmerovanie na relevantnú inštitúciu** — portál smeruje návštevníka ku konkrétnym inštitúciám v jednotlivých aspektoch exportu
- **Vyhľadávanie** — užívateľ môže použiť vyhľadávacie nástroje na získanie konkrétnych informácií z vybraných teritórií alebo sektorov

Dizajn portálu je responzívny, prispôsobuje sa rozlíšeniu zobrazovacieho zariadenia, je preto vhodný aj na prístup z mobilného telefónu alebo tabletu.

Dizajn portálu korešponduje s grafikou ÚPVS zároveň si však zachováva vlastnú grafickú identitu.
