Company visits in Chengdu

1. Sichuan Chengdu Chenggong Construction Machinery Co., Ltd.
   
   四川成都成工工程机械股份有限公司

**Sector:** Machinery

**Website:** [http://www.cgloader.com/](http://www.cgloader.com/)

**Brief profile:**

Sichuan Chengdu Chenggong Construction Machinery Co., Ltd., or "CG", began as a state-owned enterprise in 1950. Sixty years later, we have become a professional manufacturer of wheel loaders, backhoe loaders, motor graders and more heavy equipment machines with outstanding technical support. In recent years, we have received many national honors, including "China Famous Brand Products" for our "CG" ZL series wheel loaders in 2004, and "Famous Trademark of China" for our "CG" trademark in May 2009. CG wheel loaders, backhoe loaders, and motor graders find a wide range of applications in construction and other industries. Our wheel loaders are the major machine applied in earthwork and stonework construction for shoveling, loading, and carrying bulk materials like soil and stones. They can also be used for shoveling huge rocks and pan soil. In road construction applications, CG wheel loaders are mainly used to dig and fill the roadbed, collecting and loading asphalt, concrete, and more. These construction machines are generally characterized by fast operation speed, high efficiency, good mobility, easy operation, and reliability.

CG backhoe loaders, or loader backhoes are small, multi-functional heavy equipment machines. They are generally used for small-scale tasks when the major project is finished. Outfitted with many devices and accessories, they can carry out excavation, shoveling, loading, road breaking, ground flattening, ditch digging, pipe laying, and more. CG backhoe loaders generally used for road construction and maintenance, cable laying, and other applications in airports, irrigation and water conservation projects, house building, and other construction projects.
2. Chengdu Yulong Chemical Co., Ltd.
成都玉龙化工有限公司

Sector: Chemistry, agriculture

Website: [http://enyulong.wm2.primaidc.net/](http://enyulong.wm2.primaidc.net/)

Brief profile:

Chengdu Yulong Chemical Co., Ltd was founded in 1958, which was not only one of the first construction of thirteen state-owned small-scale nitrogenous fertilizer demonstration plants but also the first of the Southwest China. The company located in Qingbaijiang District, Chengdu, Sichuan Province, regarded as hinterland for land of abundance. The company covers over an area of 380 mu and accounts over ¥500 million total capital. Currently, it has annual production capacities of synthetic ammonia 160 thousand tons, urea 250 thousand tons, ammonium bicarbonate 250 thousand tons, compounded fertilizer 100 thousand tons, and melamine 50 thousand tons.

In 50 years of hard work, pioneering and innovation development process, the company has been awarded as Six Excellences Enterprise, Cleaning civilization Plant, National Environmental Elegant Factory etc. that were conferred by former Ministry of Chemical Industry. Since 1992, it in succession has been ranked as Enterprise Honoring the Contract and Respecting Promise in Sichuan by Provincial Bureau of Industrial & Commercial Administration.

With long-term insistence in people-oriented, safety and environmental protection and win-win cooperation management philosophy, our company has achieved remarkable successes. In 2005, it had been certified with ISO9001 quality system certification, ISO14001 environmental system certification. From 2006 to 2008, it had been accessed and ranked as AAA Enterprise by Provincial Technical Supervision Bureau. In 2007, it first obtained the safety management standardized plate by safety supervision bureau; At the same year, it had even been first named as Yulong Chemical Engineering Ecological Park issued by Provincial Economic Commission and Provincial Environmental-protection Bureau. In 2008, it had still been ranked as Chengdu Environmental-friendly Enterprise by Municipal Environmental-protection Bureau, Municipal Economical Commission. From 2007 to 2009, products had been awarded as Sichuan Famous Brand by Provincial People’s Government, which entered into sustainable scientific development.
3. **Chengdu kobelco Construction Machinery(Group) Co., Ltd**

成都神钢工程机械（集团）有限公司

**Sector:** Machinery

**Website:** [http://www.kobelco-cg.com/](http://www.kobelco-cg.com/)

**Brief profile:**

Chengdu Kobelco Construction Machinery (Group) Co., Ltd. is a joint venture established in 2003 in July, a joint venture between Chengdu Engineering Machinery and the international construction machinery division of Kobelco Construction Machinery Co., Ltd. in 2003 in July, a joint venture established. The company is mainly engaged in "a work card" series wheel loaders, vibratory rollers, graders and "KOBELCO" series hydraulic excavator operations, sales and service.

2009 Chengdu Kobelco Group total assets of 8.15 billion yuan, sales of excavators, loaders, etc. totaling more than 14,800 units, sales revenue of 8.7 billion yuan, total profit of 750 million yuan, 310 million yuan warehousing taxes. 2010 sales of excavators, loaders totaling 17,810 units, sales revenue of 12.33 billion yuan, total profit of 1.13 billion yuan, 590 million yuan of tax paid.

The main holding, shares of the company Kobelco Group are: Sichuan Chengdu Chenggong Construction Machinery Co., Ltd., Chengdu Kobelco Construction Machinery Co., Ltd.. Research "Chengdu Chenggong Construction Machinery Co., Ltd." set of engineering machinery products, design, development, production in one, southwest China's largest construction machinery R & D and production base. Technology Center was established in October 1998, was approved by the Sichuan Provincial People's Government approved the first batch of provincial-level technology center, currently employs more than 90 people, including 12 senior engineers, more than 50 people. 2009 completed a total of 54 scientific and technological innovation projects; declare patents 35, authorized 10. The company mainly produces series wheel loaders, vibratory rollers, graders and other hosts and torque converter, drive bridges many varieties of standard models of spare parts. In recent years, the company continued to promote the application of research and development and technological innovation and new technologies, new processes, new materials, new equipment, has successfully developed a series of new products, such as: ZL35G, ZL50 loaders and other technical levels were at their leading the late 1990s international advanced level. "Into" brand loaders, graders, rollers not only popular in China, but also exported to over 10 countries and regions in Southeast Asia, the Middle East, Africa and South America.

"Chengdu Kobelco Construction Machinery Co., Ltd." was established in July 1994, is the first joint venture Kobelco excavator Corporation in domestic investment, joint venture mainly produces series of hydraulic excavators, products with contemporary international standards. Production company as a world brand "KOBELCO" intelligent hydraulic excavator.
also won the favor of consumers and businesses at home and abroad enjoy a good reputation among customers at home and abroad.

4. **Chengdu Dayun Automotive Group Co., Ltd.**

Sector: **Automotive**

Website: [http://www.cddayun.com/](http://www.cddayun.com/)

Brief profile:

Chengdu Dayun is one China's designated first-class commercial vehicle manufacturer and is the Chengdu automobile headquarters base of Dayun Group. It boasts production qualification for full series commercial vehicle and is producing more than 450 types of vehicles under trademarks "Dayun" and "Chuanlu", including all kinds of light-duty, medium-duty, and heavy-duty trucks, low speed vehicles, special vehicles, trailers, and buses.

5. **Avic Chengdu Engine(Group) Co., Ltd.**

Sector: **Machinery, Aviation**

Brief profile:

China Aviation Industry Chengdu Engine (Group) Co., Ltd. (hereinafter referred to as "the aircraft industry development") was founded in 1958, is China's aero-engine and its derivatives research and manufacturing base. The company has six branches, six wholly owned subsidiaries, two and four shares of holding company, established a standardized and efficient group control system. The company existing staff 4,700 people, covers an area of 660,000 square meters, total assets of 4.07 billion yuan.

The aircraft industry a complete range of hair technology, strong technical strength. Forming a casing, sheet metal, blades, heat meter, test the assembly of five specialized manufacturing center, key components in the aircraft engine manufacturing has formed a technical advantages; with the aero-engine development and production capacity needed to complete test, with two areas of national defense metering station, to obtain national defense testing and calibration laboratory accreditation, physical and chemical testing center by the National Laboratory Accreditation; passed the ISO9001, GJB9001A and
AS9100-B certified quality system, heat treatment, welding, non-destructive testing, chemical processing, coating and other special non-traditional machining process by the International Aerospace NADCAP certification.

Made in the aircraft industry to bear the country’s key model aircraft engine research task; and the United States GE, PW, RR and other British companies to establish a long-term strategic partnership; industrial power systems are widely used in large-scale iron and steel, metallurgy, petrochemical, building materials, etc. areas, and actively explore the international market.

6. **Sichuan Chemical Works Group Ltd.**  
川化集团有限责任公司

Sector: **Chemistry, Agriculture**

Brief profile:

Jeden z najväčších producentov hnojív a chemických výrobkov v Číne.

7. **New Hope Group**  
新希望集团有限公司

Sector: **Agriculture**

Brief profile:

With annual sales of around $8.8 billion, NHG operates agribusiness in China and abroad with more than 400 subsidiaries and over 80000 employees. As one of the largest agribusiness enterprises and the leading agribusiness operator in China, we are devoted to building a long-term service of agribusiness, creating a better life for our consumers, providing a platform both for our employees and partners.

- NHG has been engaged in agribusiness for 30 years. We are the largest feed producer in China with annual production capacity of 26.6 million tons. Meanwhile, we have 8 national leading enterprises on agricultural industrialization and 6 China top brands.
• NHG is one of the largest suppliers of meat, egg and dairy product in China. We provide more than 200 million poultry, and half million tons of milk each year. Our processing capacity of poultry comes to 750 million and that of pigs comes to 8.5 million heads each year.

• NHG is an important platform for promoting the development of China's chemical industry. We have abundant human and financial resources in the areas of potassium, phosphorus, and coal industry, of which we aim to build 6 large resource bases separately in China and ASEAN (Vietnam and Laos). We are the largest producers of high-potassium hydrogen and phosphate in Asia.

• NHG is one of the earliest and most successful private investors in the financial service industry. NHG is the largest shareholder of Minsheng Bank in China. We also hold the trust companies, insurance companies and equity of listed companies.

8. Chuan Kai Electric Co., Ltd.
川开电气股份有限公司

Sector: Electro machinery

Website: http://en.cckdq.com/main.html

Brief profile:

Chuankai Electric Co., Ltd. (hereinafter referred to as CCK or Chuankai) is a core enterprise of Sichuan Chuankai Industrial Development Co., Ltd., which was founded in 1980, and once was a designated enterprise approved by the Ministry of Machine Building and the Ministry of Electric Power. Now, the company is engaged in R&D, design, production, sales, installation and technical consultation of power transmission and distribution complete equipment. Its scale and strength rank among top 12 enterprises in the national electrical switchgear industry and top 5 enterprises in electric control and distribution industry, and rank first in Southwest region. The company has been awarded Sichuan Advanced Enterprise, Sichuan Contract-honoring & Promise-keeping Enterprise, Sichuan Famous Brand Enterprise, Sichuan Hi-tech Enterprise, etc., and enjoying a higher reputation in national electric switchgear industry. The trademark “CCK” was listed as Sichuan Famous Trademark. The company became an enterprise directly subordinate to ABB Low-voltage Switch Cabinet Alliance by signing the contract in 2005, and undertook Qinshan Nuclear Power Station Phase-I and Phase-II, Zhejiang Sanmen, and China Zhongyuan Engineering Corporation as our nuclear-grade medium and low-voltage complete equipment passed through the testimony of national-grade experts.

CCK’s main products include 252kV or below high and low-voltage switch cabinets, electrical elements, preassembled transformer substations (switching station), lighting boxes, power control boxes, cable bridges, enclosed bus ducts, nonsegregated phase bus ducts, and pre-branching cables, which are widely applied in the fields of power stations, transformer
substations, petrochemical industry, metallurgy, municipal works, machinery, electronics, light industry, building materials, military industry, etc., and sell well all over the country as well as countries in Southeast Asia and Africa with high quality cost performance, and excellent, quick and perfect services, winning unanimous recognition and praise from all walks of life and customers.

9. **Dongfang Electric Corporation**  
中国东方电气集团有限公司

**Sector:** Electro machinery

**Brief profile:**

Dongfang Electric Corporation (DEC), with its headquarter in Chengdu, the capital city of Sichuan Province, which named as the “Heavenly Land on Earth” and the “Hometown of Giant Panda”, is one of the largest backbone enterprise groups under the direct administration of Chinese Central Government.

With the development over half a century, DEC has become a comprehensive group specialized in manufacturing industry, R&D of cutting edge technology, contracting international engineering projects, exporting complete plants and equipment, and international economic and technical cooperation. Due to its distinguished capacity and contribution, DEC represents the top class technological and manufacturing level for China’s heavy machinery and equipment industry, and is appointed by the Central Government as one of the most important state-owned enterprise groups concerning the national economy of the country.

10. **Sunotrunk Wangpai Motor**  
中国重汽集团成都王牌商用车有限公司

**Sector:** Automotive

**Website:** [http://www.wangpai.cn/about/about/](http://www.wangpai.cn/about/about/)

**Brief profile:**

China National Heavy Duty Truck ace Chengdu Commercial Vehicle Co., Ltd. is China National Heavy Duty Truck adapt to the new requirements of the automobile industry Automobile Group Co., Ltd. and Chengdu ace, in September 2010 listed reorganization commercial vehicle joint venture manufacturing company. Sichuan Province, Chengdu, conglomerates, high-tech enterprises in Sichuan Province, technological innovation-oriented enterprises. Heavy truck company is located in Chengdu ace Qingbaijiang Mi Mou town, covers an area 759413.21 ㎡. The company has a heavy truck ace automobile assembly, stamping, welding,
paint coating and automotive testing process is complete five production lines, with a strong car body, cargo compartment, frame, hydraulic cylinders and other assembly parts homemade production capacity, technology Kawauchi level of technical equipment ranked highest in the industry. And has a provincial technical center, with a strong technological innovation.

Our main products are micro, light, medium and heavy dump truck, commercial truck, sanitation special vehicles, cement mixers, low-speed vehicles and other products, all products with independent intellectual property rights. Our products are famous brand consecutive Sichuan Province, was identified as the national well-known trademarks, product brand in the domestic auto industry has high visibility.

Heavy truck market trump card company based in China, the world. The company has nearly a thousand dealers in the country, more than a thousand service outlets, the products more popular Philippines, Egypt and other places. Companies adhere to scientific development, promote technological progress, courage mechanism innovation, and strive to build China's most influential commercial vehicle production base for the country's auto industry revitalization and local economic development to make a positive contribution.

11. CSR Chengdu Co., Ltd
南车成都机车辆有限公司

Sector: Automotive

Website: http://www.csrgc.com.cn/g2735.aspx

Brief profile:

CSR Chengdu Co., Ltd (hereafter referred as “the company) was established in 1951, it is a fully-owned subsidiary of CSR Corporation. It is one of the major railway diesel locomotive, electric locomotive overhaul bases in China, and the motor R&D and manufacture base as well as oversea motor business center of CSR Corporation. The company is a national high-tech enterprise, and its technology center is a provincial technology center of Sichuan Province.

The company is located in the northeast of Chengdu City, with an area of 800,000 square meters, total assets 1.3 billion RMB and more than 3000 employees, including 422 high and middle level technicians, 16 CSR core talents and 1 MOR young talent.

The company has been awarded National Quality Management Golden Prize twice in 1984 and 1989, and National Second Level Enterprise in 1990. In 1997 the company was named National Leading Environmental Protection Enterprise. It has also passed several kinds of management system certification since 2000, such as ISO9001 Quality Management System, ISO14001Environmental Management System, OHSAS18001 Health and Safety Standard, ISO10012 Measurement Management System and International Railway Industry Standard certification
At present, the company has 3 major business, locomotive overhaul, passenger car overhaul and motor manufacture. Its locomotive overhaul capacity is 350 pieces per year, customers are all over China's 18 Railway Bureau and many local railway market; passenger car overhaul capacity is 800 pieces per year; motor R&D and manufacture capacity is 4000 pieces per year. Over 40 kinds of the products have been supplied to most locomotive manufacturers in China, and also been exported to foreign countries. The company’s development vision is to become the largest railway locomotive, passenger car overhaul center in southwest of China, and China’s largest diesel locomotives motor R&D, manufacture, export center, and first class railway transportation equipment manufacturer.

12. Chengdu Woteam Food Stuff Co., Ltd.
成都伍田食品有限公司

Sector: Food

Website: http://www.woteam-food.com/zh-CN/index.html

Brief profile:

Chengdu Woteam Food Stuff Co., Ltd.is located in Chengdu, Sichuan Province, Chengdu Xinjin County, Wenzhou Road, is the response the national "poverty alleviation" and the Chengdu municipal government on the development of rural industry, "two high-priority" on the development of rural industrialization guidelines call for the promotion of the Sichuan region's economic prosperity and social stability, was founded in March 1997, the company has a total investment of 167 million yuan, with a total area of 100,000 square meters, is a high-quality slaughtering, cutting, processing frozen, fresh off the chain and meat products deep processing as one large, integrated meat food manufacturing companies. Sichuan Province is the focus of agricultural industrialization leading enterprises, Chinese meat industry, 50 companies, advanced agricultural products processing enterprises in Sichuan Province. Chengdu Woteam Food Stuff Co., Ltd. in accordance with the standard first-class, production-class products first-class approach, the full introduction of Germany, Switzerland, Denmark and Japan's advanced processing equipment, built the world's advanced meat processing production base and advanced western region's premier integrated slaughter and processing base. Chengdu Woteam Food Stuff Co., Ltd. fresh slaughter and processing bases, production capacity to slaughter 100,000 cattle, 400,000 pigs, sheep, and 15 million ducks, 2 million chickens in processing capacity. Woteam meat processing base in the western meat processing technology leader, and successfully created deep processing of meat "of Chinese and Western-oriented products, traditional products of modern" development, road applications. Development and application of meat processing technology has won government awards, "Sichuan Province Science and Technology Progress Award", "Chengdu Science and Technology Progress Award"; company and has achieved ISO9001 international quality system certification and HACCP food safety system certification.
